KEY ISSUES & TRENDS REPORT

JOINT ANALYSIS AND LESSONS
LEARNED CENTRE

Lessons Learned generate insights that should enable NATO to adapt quickly and transform in line with conditions on the ground. Each year, the JALLC analyses what key issues and trends are developing that NATO should be aware of if it wants to adapt rapidly to win the fight tomorrow as well as tonight. The report highlights nine important areas to inform decision making and capability development, ensuring that NATO remains, not only a learning organization, but one that implements what it learns as well.

You can download a copy of the report from the JALLC Analysis Community of Interest in the classified version of the NATO Lessons Learned Portal subject to access and appropriate security clearances.

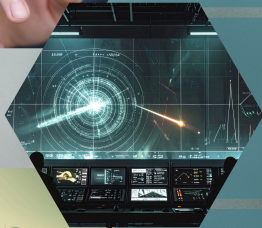

Ballistic Missile Defence

Integrated Air & Missile Defence

Communications & Information Systems

Command & Control

Autonomous Systems

Stockpiles & Pre-Positioning
